Key Financial Highlights 2023: Performance was driven by underlying loans growth and higher core banking income

- For the third consecutive year, AB Group delivered double digit growth in profitability through its diligent strategy execution. In 2023, AB Group's net income after tax reached \$829.6mm a 52% growth from the \$544.3mm achieved in 2022.
- The Group's performance was driven by sustainable growth in its underlying business across various sectors and markets, with a clear focus on enhancing non-interest income contribution and revenue diversification. Net operating income improved by 35% to reach \$1.82bn. This was achieved while the Bank continued to invest in transformation and maintaining a resilient balance sheet, which will position it for further growth in the future.
- The Bank's record net operating income is also a clear testament to its strong growth momentum across several markets, especially in the GCC region and international markets.
- Total Assets grew by 6% to reach \$68.3bn; loans grew by 5% to reach \$37.1 bn, and deposits grew by 6% to reach \$50.6bn. This achievement highlights the Bank's ability to withstand adverse challenges in the operating environment while continuing to deliver on its growth strategy.
- Arab Bank Group maintained a strong capital base that is predominantly composed of common equity with a capital adequacy ratio of 17.5%. In 2023, Arab Bank successfully issued \$250mm in sustainable Additional Tier 1 Capital Securities, which marks the first and largest sustainable perpetual AT1 issuance in Jordan.
